

**CANDIDATE FOR CONGRESS OF THE
UNITED STATES HOUSE OF REPRESENTATIVES**
PA DISTRICT 5

June 2, 2024

To: The Residents of PA-District 5

The Trump conviction has resulted in a miscarriage of justice and an instant breach of constitutional rights, as we have lately observed. The future is grim, and I'm quick to pause, if the American people are to be exposed to a law-fare and retaliatory excuse of a jurisdiction system. Our political system has once again failed the people of the United States by prioritizing political elitism, nepotism, and cronyism over justice. In addition to engaging in political pandering, Joe Biden and Congresswoman Mary Gay Scanlon have demonstrated in recent days how disconnected they are from the hardworking taxpayers they are sworn to represent.

To start, let me discuss Biden's recent visit to the Philadelphia region. For years, out-of-touch Democratic politicians have persuaded the Black community to vote for them by inciting fear, spreading false information, and even outright lying. Democrats and their proxies repeatedly enter once democratic stronghold towns weeks before elections, promising everything in an effort to win over voters. As soon as the goal is accomplished, however, they are rarely seen; frequently, the promises made are broken, leaving families without basic necessities and frequently facing much greater hardships.

The Democratic Party's shameful attempt to win over Black voters nationwide, especially in sanctuary communities where they have been most negatively impacted by Biden and Gay's destructive policies, is once again displaying its obscenely grin. Not to be forgotten, the Democratic Party has always relied on deceit, cunning, and pulling shades over the eyes of the American people in order to further their power-hungry agenda that destroys America. I will continue to serve as a leader for the American people as your next congresswoman when I am elected. Like many members of the minority community, I find it offensive when Joe Biden shows up in town carrying a prepared script and gives us a speech about the evils of not voting Democrat. We are tired of their tricks and we have had enough.

Respectfully,

A handwritten signature in black ink that reads "Alfe Goodwin". The signature is fluid and cursive, with the first letters of "Alfe" and "Goodwin" being capitalized and prominent.

Alfe Goodwin
Candidate for Congress
